

Remote Vibration K-Balls

- ★ You can take out the bullet & use it alone
- Vibration function can be directly controlled by the button on the bullet.
- The operation of the button on the bullet is same as the remote.
- But you still need to turn on the remote reception function first, even you don't use the remote.

Remote — Put 'Vibration K-Balls' into your body, remote control the vibration functions.

- ★ Remote control distance: 10 meter.
- ★ Remote use CR1220 button battery.
- ★ Remote no waterproof

★ Please turn on the remote reception function of the bullet before you use the remote.
Turn on - Press the bullet button for 1.5 seconds till you feel one time short vibration.
Turn off - Press the bullet button for 2 seconds till you feel two times short vibration.

★ For saving the bullet's battery, please turn off the remote reception function of the bullet when you don't use it.

A. Press the button to turn on it with the 1st vibration mode.

B. After turning on, each press the 'Vibration K-Ball' will change a vibration mode, after the 8th mode it will go back to the 1st mode.

C. After turning on, anytime quickly press twice the 'Vibration K-Ball' will get into the auto cycle of 8 vibration modes, if want to get out the auto cycle of the 8 vibration modes, just press once.

D. Press the button for 1 second to turn off the 'Vibration K-Ball'.
